1. Introduction

This document presents the ethical H-Requirement No. 1 focusing on human participants and subjects in the scope of the MAGPIE research.

2. Procedures and criteria for requirement

MAGPIE will not involve any human participants and subjects, hence no consent procedures and criteria need to be in place. Hence, also no children and/or adults unable to give informed consent will be involved.

3. Templates for informed consent

This is not applicable since there are no participants in the project.

4. Clarifications

- The applicant must clarify whether children and/or adults unable to give informed consent will be involved and, if so, justification for their participation must be submitted as a deliverable: this is not applicable.
- In case children and/or adults unable to give informed consent are involved, details on how the consent of the legal representatives (and assent, when applicable) will be acquired must be submitted as a deliverable: this is not applicable.
